

INDUSTRIAL & MANUFACTURING

Bush supports industrial operations through **planned capital improvements, expansions, and facility upgrades**. With McCarthy-Bush capabilities under one umbrella, we provide fewer handoffs and clearer accountability for execution.

WHAT WE BUILD

- Manufacturing & processing facilities
- Plant expansions & production line retrofits
- Distribution & logistics facilities
- Infrastructure, utilities & site improvements
- Pre-engineered buildings
- Repeat CapEx & multi-phase improvement programs

HOW WE WORK

- Front-end planning tied to operational priorities
- Clear scope, sequencing, and shutdown coordination
- Safety-driven execution and quality control
- Consistent teams for ongoing capital programs

THE MCB ADVANTAGE

More capabilities under one umbrella.
Fewer contractors to manage.

Through McCarthy-Bush, industrial clients gain access to coordinated services that reduce handoffs and simplify execution:

- Development & early feasibility
- Design-build & preconstruction
- Self-perform concrete, earthwork & utilities
- Structural & specialty steel
- Refractory & high-temperature systems
- Industrial maintenance & shutdown support
